

PRESS RELEASE

September 2009

New from die-cutting royalty QuicKutz is an awesome universal tool called the Epic SIX. With a 6 by 13" cutting area it has the ability to cut and emboss using all of the existing QuicKutz dies, but also all the dies of the other leading brands (even the steel rule ones!)

With a high quality mechanism and stylish design, all in a portable unit with an integral handle. The Epic SIX also sets the scene for some ground breaking accessories including an innovative desktop Letterpress system allowing this high-end and much demanded effect to be produced affordably in the home.

Also available are a range of fun and funky festive dies and embossing folders, perfect for creating unique greetings cards, decorations and scrapbook pages.

From cute reindeer to baubles and greetings there is something for everyone! QuicKutz dies are compatible with most personal die-cutting machines meaning everyone can take advantage of the great designs.

The Epic SIX is available September 2009 RRP £79.99 Dies/Embossing Folders starting from £4.50
